

Universally Unique

Ergonomics Evolved

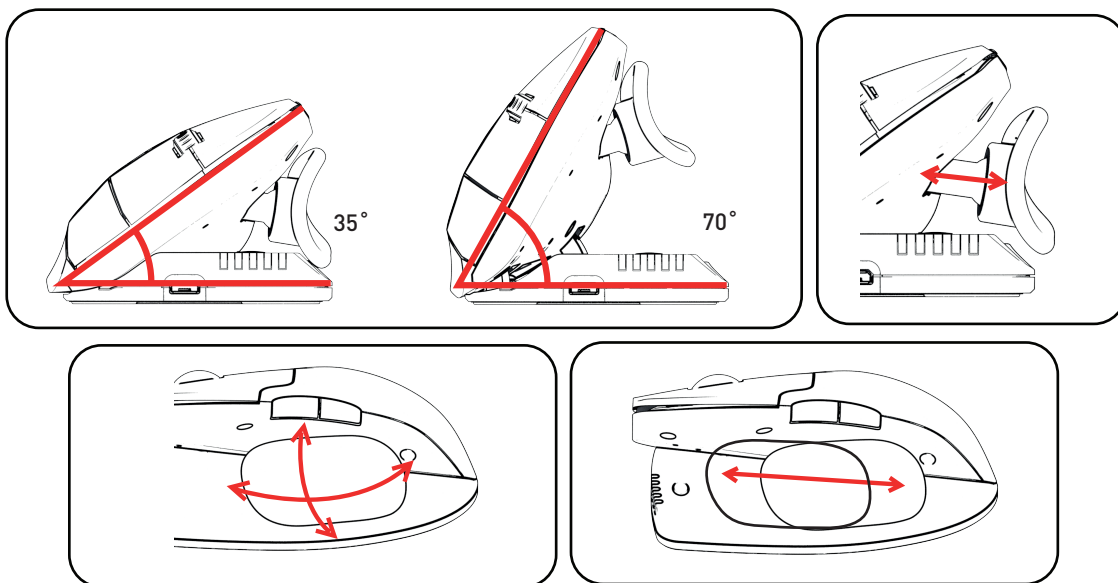

Unimouse is the next step in ergonomic mousing. With four key adjustable features, Unimouse offers comfort and support regardless of your hand size.

Multidimensional Mousing

With its adjustable body tilt and articulating thumb support (ATS), Unimouse features four key points of articulation to offer an ergonomic experience that is unique to each individual user.

Our Story

For over 20 years Contour Design has been developing ergonomic mousing solutions that have helped to stop and prevent repetitive stress injuries such as Carpal Tunnel Syndrome and Tendonitis. From the PerFit Mouse to the Contour Mouse and now with the multi-dimensional Unimouse, Contour Design continues to evolve to provide the perfect balance for your hand.
